

Beware Of Hoax Messages

Hoax Message

Hoax message is an international false story containing disturbing information and is intended to trick recipients into passing on the message to other people. Hoaxes create personal anxiety and can lead to mass panic. Often, these messages are spread through SMS, whatsapp or social networks

Best Practices

- Delete them as soon as they arrive in the inbox.
- Do not send or forward or reply such chain messages, even if it offers you reward for doing do.

How to protect yourself against such frauds

- ☞ Don't made your phone as your personal data store. This is dangerous, if it falls into the stranger's hand.
- ☞ Install an antivirus and scan your mobile at regular intervals.
- ☞ Never share your mobile devices with strangers.
- ☞ Use strong PINs and change your PIN (in your mobile devices) regularly
